School Update

Dear Parents:

Today at approximately 10:40 a.m., there was a small fire in a washroom garbage can at Centennial School. The smoke detector sounded a fire alarm. Most students were already outside for recess. Remaining students and staff within the school proceeded outside to our school's Muster point (school evacuation area). The fire was quickly extinguished by school staff.

Nobody was injured during this incident. Students, led by school staff, safely exited the building. Wetaskiwin Regional Public Schools staff, police & the fire department were notified and are presently investigating this event.

If anyone has any questions or information about this event, please call the school at 780 352 5088.

Sincerely,

D. Luck
Principal
